2020 Census Operational Plan

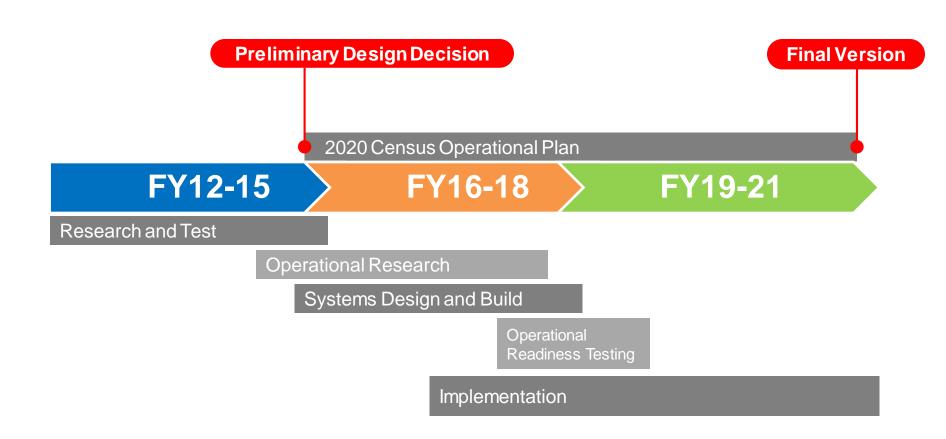

Ann Gwynn Wittenauer
Project Manager, 2020 Census Operational Plan Team

July 10, 2015

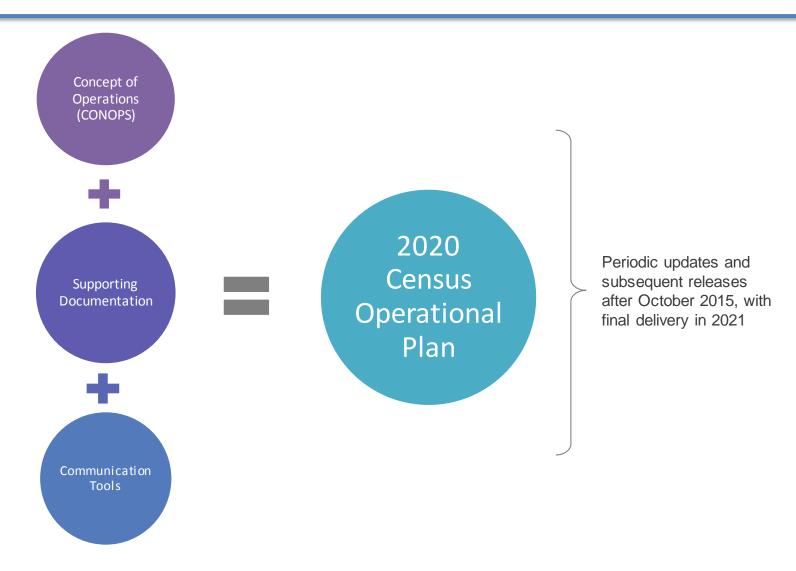

V1.0 Final

2020 Census Operational Plan Timeline

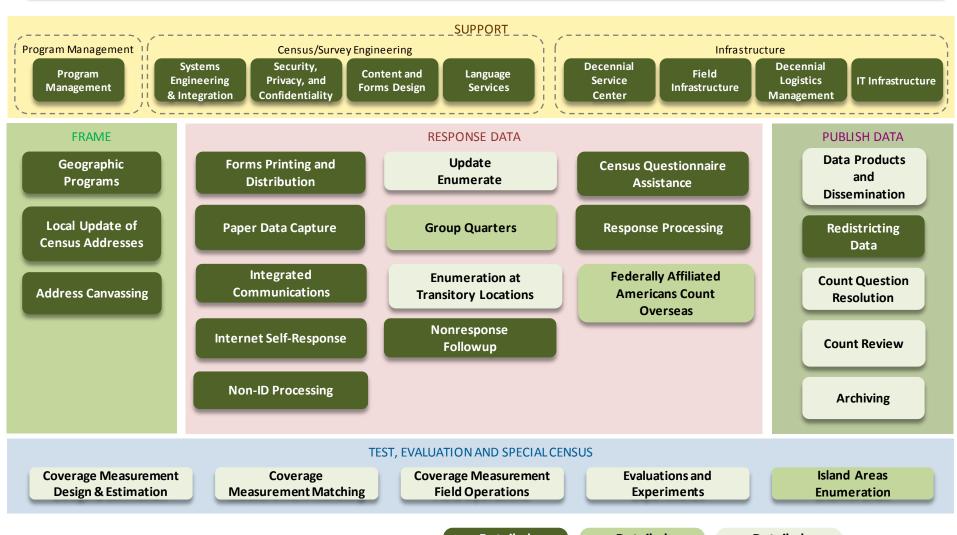

2020 Census Operational Plan

The Status of the 2020 Census Operations and Support Areas

Decisions Analysis and Support

Catalog decisions already made and validate

Catalog decisions needed, prioritize, and escalate (in a timely manner)

Document in the Operational Plan

Establish a baseline

Status of Decisions Analysis & Support

Paper Processing (Now Paper Data Capture and Forms Printing and Distribution)	Address	Geographic	Internet
	Canvassing	Programs	Self-Response
Census Questionnaire Assistance	Integrated Communications Program	Field Infrastructure (now Decennial Logistics Management and Field Infrastructure)	IT Infrastructure

Quality Analysis

Quality Metrics

Focus to date on three major areas of innovation

Reengineering
Address Canvassing

Optimizing
Self-Response

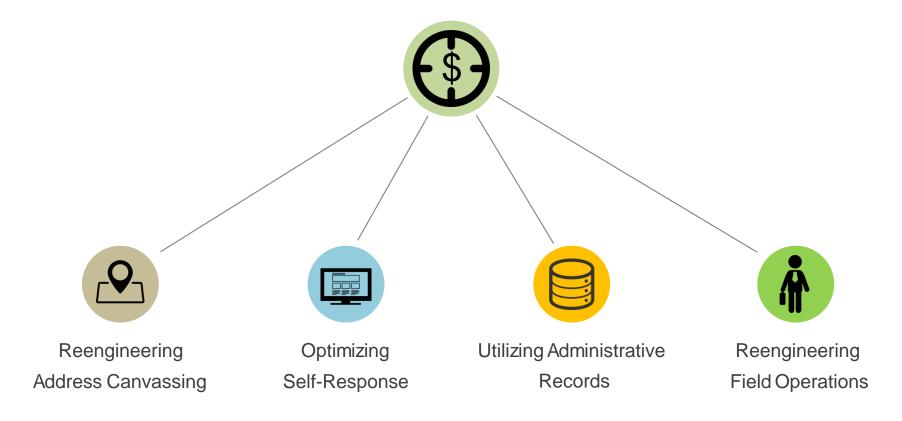

Reengineering Field Operations

Cost Analysis

Life Cycle Cost Estimate Parameters

Focus on four major cost saving categories

Cost Analysis

Life Cycle Cost Estimate Parameters

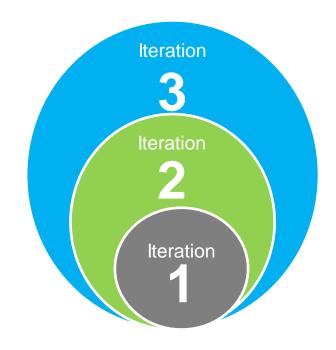

Ensure an appropriate linkage between cost estimates for the 2020 Census operations and systems with the Work Breakdown Structure (WBS).

Define workload parameters by WBS that can be used for cost estimation purposes.

Conclusion

2020 Census
Operational Plan
on Track
to Baseline on
September 30, 2015
